

### Vision

We are a transformed community, growing together and sharing our lives with children at risk and their families, that we all may experience God's Kingdom in our lives and communities.

### Mission

We reach out to, support, and care for children at risk. We intentionally build family-like communities of love, acceptance and healing. We integrate Christian values and practice in all programs.

Onesimo Bulilit Foundation is a faith-based, non-profit, non-government organization working among street children and their families in Manila, Philippines.

At Onesimo Bulilit, we:

- use a developmental approach, viewing the child in the context of his or her family and community;
- support and empower families to use their own resources in order to care for their children;
- want to see both parents and junior leaders becoming models and transforming agents for their families and community;
- aim to build family-like communities as a venue for healing and transformation;
- believe that genuine transformation cannot happen without the power of God's healing love and grace.

### Drop-in Center - reaching out and protecting

Vulnerable street children (6-14 years old), after being met in the streets, find a safe place and an open ear in the *Bahay Silungan*. Their basic needs are provided, they are taught healthy life habits, and are motivated for their schooling. Their situation is being assessed and further interventions planned, in coordination with their parents or guardians.

### Residential Care – healing and empowering

Children (6-12 years old) in need of protection from abuse, neglect, or abandonment experience a family like atmosphere in the *Bulilit Shelter*. They are able to work through their painful experiences, continue their schooling, and learn adaptive life skills. The goal is their reintegration with family or relatives, adoption, or independent living.

### Community Based Program - equipping and empowering

The **Educational Assistance Program** supports children of street families (7-18 years old) to attend formal school and perform well. Their educational needs are provided; and they are offered a safe venue for tutorials, skills enhancement, and continuous support through the *Student Center*. Wherever possible, we seek to involve the parents of the students.

The **Development Center** prepares deprived children (6-9 years old) for formal schooling by teaching them basic literacy, building their self-confidence, and training them to master self-control.

The **Alternative Learning System** provides opportunity for out-of-school children (10-18 years old) to acquire basic literacy and numeracy skills, to catch up with their schooling; and eventually take Accreditation and Equivalency Examinations for Elementary and High School Levels.

In the **Leadership Training** teens (12-18 years old) from the different programs are being trained to be advocates, role models, and teachers of the next generation of children through group work, camps, mentoring and active involvement

**Camps, Outdoor Sports** and **Family Retreats** enable the children and their families to experience a different environment, to reflect on their lives, and to deepen their relationships with each other and with God.
